LA15DM REVISION B

MADE IN USA.

2-way sound systems

When describing sound, the general public uses the words "fine and smooth". Some also use the word "earth-shaking". Csp engineers use the world "luxury" to describe LADM sound!

Solid and strong bass, saturated mid to low frequencies, stable median and natural high frequency response are the reasons that LADM is referred to as luxury.

Due to the luxury of LADM, Csp engineers invented an important name to score the acoustic quality. That is "focusy". The use of this name shall provide a quantified data to the appraisal of acoustic products.

Multipurpose is one of LA15DM's features. The use of LAV3 technology combining with the two frequency-halving speaker boxes produced using Csp technology gives a specified receiving power of 500 watts and FOCUSY of 8.

The biggest feature of LA15DM is its strong analytical power at 200Hz-500Hz. It can revert mid to low frequency perfectly to provide saturated and natural sound. Solid and strong low frequency is the basic characteristic of LADM series. LA15DM is of no exception. Its outstanding system integration capability, whether using several LA15DM together or forming frequency-halving with LA18BM, LA15DM will produce the best result. In other words, LA15DM can easily a good sound field and can control it freely.

Specifications:

System Type: 2-way, Full range, bass ported LF (1 x Csp 15LV3)

Frequency Range: 45 Hz - 20 kHz (-10 dB) 50 Hz - 20 kHz (+/-3 dB)

Power Capacity: 500 W Continuous 2000 W Peak

Recommended Power Amplifier: **P.PA** Series

Sensitivity (1w/1m): 99 dB

Maximum Output: 132 dB

Nominal Impedance: 8 Ohms

Nominal Dispersion: 70° x 50°

Crossover: T5r1

Drivers: HF (1 x Csp H450)

High Frequency Driver Protection: SP DDPJ

Input Connection: Dual Neutrik NL4 in parallel

Enclosure Hardware: 3/4" MDF wood, UPWEJ black polyurea finish

Grille: 16 gauge perforated steel, additional powder coated

Dimensions (H x W x D): 27" x 18.5" x 16.625" 686 mm x 470 mm x 422 mm

Weight: 68 lbs (30 kg)

Shipping weight: 74 lbs (33 kg)

APPLICATIONS:

Concerts Live club performance Club installs Mobile DJ Houses of Worship Live performance stage monitoring Entertainment

FEATURES:

15" LV3 Technology, Flying version MHF750J Horn Multi-angle enclosure designed for use as a front-of-house speaker or a stage monitor Die-cast aluminum basket Full-range passive operation or Bi-amplified (optional) SP DDPJ (Speaker Distortion Dynamic Protection) UPWEJ (Ultrachrome Protecting wood enclosures) black polyurea finish Dual Neutrik Speakon in Parallel pole mount socket Manufactured with Pride in the United States
